Model

HP Flip-Top Cash Drawer

BW867AA

Introduction

Designed for seated store associate or space-constrained environments, the HP Flip-Top Cash Drawer provides a robust and stylish cash management solution. It features a heavy duty black case with a stainless steel lid that flips open for easy access from the top, which makes this model suitable for operation while seated or standing.

With a narrow depth, the HP Flip-Top Cash Drawer is designed to minimize the amount of counter space required in your retail environment. In fact, this model can be designed so that the top surface is used as counter space, until the cash drawer is opened.

The HP Flip-Top Cash Drawer comes with one universal till with adjustable bill slots with up to 6 slots and 8 coins cups. It also includes a lockable lid with handles. Keys are included for both the Cash Drawer and the till lid.

Key Benefits

- Space-saving design with 172mm (6.77") in depth that can maximize counter space
- Robust durable construction designed to sustain the typical wear of retail environments
- Universal till features adjustable bill dividers
- Locking till cover with handles allow for easy removal and transportation of the till insert
- HP POS printer interface cable for easy connection to one of the HP POS printers (can also be connected directly to the integrated cash drawer port on the HP Retail System)

Overview

Compatibility

The HP Flip-Top Cash Drawer is compatible with the HP Point of Sale Systems and HP POS printers. The cash drawer can be connected directly to the HP Retail System through the integrated cash drawer port. For all other HP Point of Sale Systems, the cash drawer must be connected via the provided interface cable through a HP POS printer.

NOTE: Not all HP Point of Sale System models or HP POS Printer models are available in all regions. Check with your HP Partner or Sales Representative for more information.

Third party printer models may require a 3rd party interface cable to operate with the HP Flip-Top Cash Drawer.
